Enter a world of ghostly spirits, haunted places, where people read your deepest thoughts, and astral project to distant worlds.

Some of the segments are:

Ghosts and Haunted Places- Secret KGB files are revealed regarding investigations into “un-explainable” events.

Psychics- It is a well known fact that the KGB employed psychics, such as the famous Uri Geller, to take control of the world.

Astral Projection- Certain individuals possess the ability to “travel” to distant locations without leaving their body. Where these people able to “spy” on us?

The Blast at Tunguska- Evidence suggests that this catastrophic explosion that occurred in 1908 may have been a UFO crash. 500,000 acres were destroyed, with no crater. Accelerated tree growth, and strange human behavior are all blamed on this event. The KGB searched for a connection, here are the results.
